## **DETAILED ACTION**

### ***Affidavit Under 37 CFR § 1.132***

The affidavit under 37 CFR 1.132 filed August 6<sup>th</sup>, 2003 has been considered along with the supplemental documentation filed on September 3<sup>rd</sup>, 2004. The supplemental documentation sets forth a listing procedure and the test results that showed a spacer made of polyamide to provide a greater respirable fraction and thus greater unexpected results than the material used in the spacers of the prior art of record, O'Callaghan and Altounyan.

### ***Examiner's Allowance***

The following is an examiner's statement of reasons for allowance: Spacer having a chamber made of polyamide provides a superior respirable fraction that is not found in prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
